Senior Design Bi-Weekly Status Report; Fall 2023

Team Name: sdmay24-45
Team Members:
      Megan Eberle
      Bariture Ibaakee
      Breann Grant
      Abigail Thompson
      Evan Nim
      Alexander Lafontaine
Report Period: August 28 - September 10

Summary of Progress in this Period

First Expected Deliverable: Training students on AI and cloud computing: 3-4 weeks

1. We are on track with learning more about AI and cloud computing right now. Professor Gaffar will continue to teach us more until we have sufficient enough knowledge and experience to start working on our own models.
2. Everyone is caught up to the recorded meetings and we are committed to meeting at least once a week outside of meetings to do any assignments needed of us.

Pending Issues

We are not currently facing any issues at this point because we are just starting the training process.

Plans for Upcoming Reporting Period

1. Continue learning about Artificial Intelligence and understanding how to implement an AI model.
2. Continue meeting regularly as a team, with our TA, and with Professor Gaffar.
